

ADDITIVE APPLICATIONS

WEATHER ABOVE 15° F (-9° C) | Treat with **DIESEL AID** or **DIESEL AID + CETANE** to *totally remove moisture*

Diesel Aid
All-Season Performance Additive

- Totally Disperses Water
- Improves Cold Flow, Fuel Economy & Lubricity
- Inhibits Corrosion
- Cleans Injectors

✓ **8 OZ Treats 240 GL**

Diesel Aid + Cetane
All-Around Performance Additive

- Increases Cetane & Horsepower
- Totally Disperses Water
- Improves Cold Flow, Combustion, Fuel Economy & Lubricity
- Inhibits Corrosion

✓ **16 OZ Treats 240 GL**

WEATHER BELOW 15° F (-9° C) | Treat with **ARTIC POWER** or **ARTIC FLO** to *prevent fuel gelling, icing & waxing*

Artic Power
All-Around Cold Weather Performance Additive

❄️ **Anti-Gel to -25°F (-32°C)**

- Improves Cetane, Cold Flow, Combustion, Fuel Economy, Horsepower & Lubricity
- Reduces Exhaust Emissions
- Prevents Icing

✓ **16 OZ Treats 200 GL**

Artic Flo
Cold Weather Performance Additive

❄️ **Anti-Gel to -40°F (-40°C)**

- Prevents Gelling, Icing, & Waxing
- Improves Cold Flow, Fuel Economy & Lubricity
- Protects Fuel System

✓ **16 OZ Treats 250 GL**

CONTAMINATION CONTROL | Treat with **DIESEL AID** & **BIO-BLAST** *quarterly* to *treat & prevent water & microbial contamination*

Diesel Aid
All-Season Performance Additive

- Totally Disperses Water
- Inhibits Tank Corrosion & Future Microbial Growth

✓ **8 OZ Treats 240 GL**

Bio-Blast
Biocide Performance Additive

- Kills All Microbial Growth
- Works in Water & Fuel Phases
- Effective in Biodiesel & Blends

16 OZ Treats 1,280 GL

EMERGENCY TREATMENT | Treat with **D-GEL** during emergencies to *immediately thaw fuel*

D-Gel
Emergency Cold Weather Performance Additive

- Reliquifies Gelled & Iced Fuel
- Deices Fuel Filters
- Improves Cold Flow
- Removes Water

16 OZ Treats 50 GL

KEY

Safe to Use with Each Tankful = ✓

Use Additives Together = +

Use Either Additive = ⊘

E-ZOIL performance additives are formulated for today's Ultra Low Sulfur Diesel, are safe for use with biodiesel fuel, meet all emission standards, and provide added protection for your valuable diesel-powered equipment.

E-ZOIL
Fuel Additives

E-ZOIL performance additives are formulated for today's Ultra Low Sulfur Diesel, are safe for use with biodiesel fuel, meet all emission standards, and provide added protection for your valuable diesel-powered equipment.

DIESEL FUEL SYSTEM CLEANER

Treat with **CARBON CRUSHER** to remove carbon deposits & reduce DPF regeneration!

- Carbon Crusher**
Diesel Fuel System Cleaner
Formulated for HPCR Fuel Systems
- Reduces DPF Regeneration
 - Cleans Fuel System & Stabilizes Fuel
 - Dissolves Asphaltenes
 - Improves Combustion & Fuel Economy
 - Increases Cetane & Lubricity
- ✓ **16 OZ Treats 200 GL**

LIGHT & MEDIUM DUTY DIESELS

Treat with **DIESEL FIRE** or **DIESEL FIRE PLUS** to separate water & boost performance!

- Diesel Fire**
Summer Performance Additive
Use Year-round or in Warm Weather
- Separates Water
 - Cleans HPCR Fuel Systems
 - Improves Combustion & Fuel Economy
 - Increases Cetane & Lubricity
 - Reduces Exhaust Emissions
 - Inhibits Corrosion
- ✓ **16 OZ Treats 64 GL**

- Diesel Fire Plus**
Winter Performance Additive
Anti-Gel to -30°F (-34°C)
- Separates Water
 - Prevents Gelling & Waxing
 - Cleans HPCR Fuel Systems
 - Improves Combustion & Fuel Economy
 - Increases Cetane & Lubricity
 - Reduces Exhaust Emissions
 - Inhibits Corrosion
- ✓ **16 OZ Treats 64 GL**

BIODIESEL FUELS

Treat with **BIO-AID** & **BIO-POWER** to prevent water contamination & gelling!

- Bio-Aid**
All-Season Biodiesel Performance Additive
Use Year-round or in Warm Weather
- Totally Eliminates Water
 - Improves Cold Flow, Fuel Economy & Lubricity
 - Inhibits Corrosion
- ✓ **16 OZ Treats 240 GL**

- Bio-Aid**
Cold Weather Biodiesel Performance Additive
Anti-Gel to -15°F (-26°C)
- Prevents Gelling, Icing, & Waxing
 - Improves Cold Flow, Fuel Economy & Lubricity
 - Inhibits Corrosion
- ✓ **16 OZ Treats 200 GL**

STABILIZE & STORE

Treat with **PHAZE-OUT** or **STORZALL** to stabilize fuel!

- Phaze-Out**
Gas/Ethanol Performance Additive
Formulated For 2 & 4 Cycle Engines & E-10, E-15 & E-85 Fuels
- Prevents Phase Separation & Corrosion
 - Improves Combustion
 - Cleans Fuel System
 - Stabilizes Fuel
- 8 OZ Treats 40 GL**

- Storzall**
Stabilizer Performance Additive
For Use Storing Fuel or Vehicles Containing Fuel
- Stabilizes All Fuel for Storage
 - Prevents Fuel Degradation
 - Inhibits Oxidation
 - Protects Fuel System
- 16 OZ Treats 200 GL**
